

OMS C3[®] (Chronic Care Coordinator)

Your complete solution for Remote Patient Management

The OMS C3[®] is a connected care platform with a trifecta of modules – **Remote Patient Monitoring, Principal Care Management** and **Chronic Care Management**. It allows your clinical staff to easily review patient data and identify subtle changes in their health to help improve preventative care and clinical outcomes. The platform can be easily implemented into existing cardiology workflows, allowing practices to achieve exceptional clinical and financial ROI.

Revenue Outlook for the OMS 3C® Platform

The [2022 Medicare Physician Fee Schedule Final Rule](#) includes important information for cardiology practices that provide care management services for Medicare beneficiaries.

With drastic increases in reimbursements and a more expanded code set, there's no better time to kickstart your remote patient engagement program!

Chronic Care Management (CCM) and Complex Chronic Care Management (CCCM)

Code	Descriptor	2021 Payment	2022 Payment	Difference
99490	CCM, clinical staff, initial 20 min.	\$41.17	\$62.16	+\$20.99
99439	CCM, clinical staff, +20 min.	\$37.69	\$47.04	+\$9.35
99491	CCM, physician/NPP, 30 min.	\$82.53	\$83.66	+\$1.13
99437	CCM, physician/NPP, +30 min.	n/a	\$59.47	+\$59.47
99487	Complex CCM, clinical staff, 60 min.	\$91.77	\$130.37	+\$38.60
99489	Complex CCM, clinical staff, +30 min.	\$43.97	\$68.51	+\$24.54

Principal Care Management (PCM)

Code	Descriptor	2021 Payment	2022 Payment	Difference
99424	PCM, physician/NPP, 30 min.	\$90.37	\$80.98	-\$9.39
99425	PCM, physician/NPP, +30 min.	n/a	\$58.46	+\$58.46
99426	PCM, clinical staff, 30 min.	\$38.73	\$61.49	+\$22.76
99427	PCM, clinical staff, +30 min.	n/a	\$47.04	+\$47.04

Increase patient engagement and retention with an all-in-one solution

OMS C3[®] Chronic Care Coordinator is a comprehensive platform that helps you remotely manage both your acute and chronically ill patients.

OMS C3[®] platform benefits include:

-  **Cardiovascular dashboards** and **remote patient visit templates** to support your clinical care coordination teams in quick decision-making
-  **Unique independent care plans** for hypertension, heart failure, atrial fibrillation, coronary artery disease, peripheral artery disease, hyperlipidemia
-  **HIPAA-compliant video conferencing** to enable seamless interaction with your patients
-  **Easy integration with scheduling systems** to reflect care coordination team appointments
-  **C-CDA / API-based patient data extraction** from your native EHR to ensure clinical teams have the latest information at their fingertips, along with the ability to upload finalized notes
-  **Built-in triage protocols** for chest pain, palpitations and post-procedure monitoring along with **automated alerts** for remote patient monitoring
-  **Secure hosting** on HITRUST-certified cloud for maximum data security and privacy
-  **Cardiovascular risk scores** like Framingham risk and CHAD2S2-VASC score
-  **Integrated timers for bookkeeping and auditing** purposes, as well as services to transmit CPT codes to billing systems to greatly simplify month-end billing
-  **Bluetooth-enabled smart phone app** (supports iOS and android), along with Bluetooth integration with the peripheral device brand of the patient's choice

Simplify Connected Care

Created by cardiologists for cardiologists, Objective Medical Systems' solutions are designed to help you focus on your patients and ease your workflow. Schedule a 20-minute tour of our Cardiovascular Solutions today.

The demo will walk you through the various features of the award-winning software.
